

Student Learning Personas

Understanding Our Learners

Presented By : Shanthini Jayashree

The Achiever

Understanding a focused learner's journey

Goal

The Achiever aims to get **high marks** and complete courses efficiently, driven by a strong desire for academic success and recognition.

Behaviors

This persona follows a **study schedule**, takes quizzes regularly, and reviews notes and recorded classes to reinforce understanding and ensure preparedness for exams.

Pain Points

Despite their dedication, Achievers face challenges like **exam stress**, difficult subjects, and limited time for revision, which can hinder their performance and well-being.

The Skill Seeker

Understanding the learner's aspirations and needs

Goal

The primary goal of The Skill Seeker is to **develop skills** that will enhance their future career prospects and employability.

Behaviors

This persona actively takes practical courses, works on real-world projects, and searches for tutorials to gain hands-on experience in their field of interest.

Pain Points

The Skill Seeker faces challenges with too many course options, a lack of practical guidance, and unclear career pathways that can hinder their learning journey.

The Explorer

Discovering new topics with curiosity

Goal

The Explorer aims to **learn new topics** driven by curiosity, seeking knowledge across a variety of subjects without a specific career focus.

Behaviors

This persona frequently tries different courses, prefers **short videos**, and enjoys a flexible learning pace, allowing for exploration of diverse interests.

Pain Points

Common challenges include losing motivation during longer lessons, struggling with **content suitability**, and difficulty maintaining engagement through traditional learning formats.
